Exporter

Settings

RECOMMENDED:
Run a Driver Scan
to check for any
outdated drivers.

Driver analysis export

Use this tool when the computer needing drivers does not have an Internet connection. Press "EXPORT" to start the process.

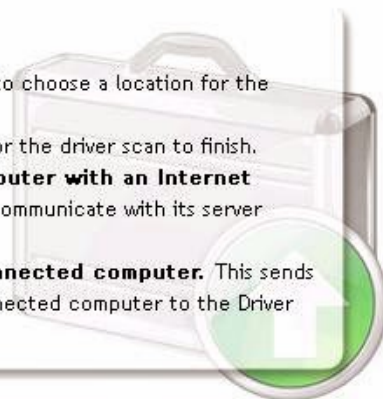

EXPORT

[Save a driver snapshot
for use on another PC]

Driver Exporter process:

1. **Press Export.** You will be prompted to choose a location for the driver analysis output file.
2. **A driver scan will now run.** Wait for the driver scan to finish.
3. **Move the exported file to a computer with an Internet connection.** Driver Robot needs to communicate with its server to get your drivers.
4. **Run the exported file on the connected computer.** This sends the driver information for your disconnected computer to the Driver Robot server.
